## BARk's Newsletter

### From the desk of the ACO:

Happy Summer Everyone,

As the summer heat approaches, remember to keep your pets hydrated and have shelter from the heat....heat stroke can happen fast and can be fatal if not taken care of. Don't walk your dogs in the heat of the day...walk them early mornings or after 7 pm at night. If you are uncomfortable so is your dog...some days, they shouldn't be walked because of the heat. To cool them down, wet the pads of their paws and cool off their belly's, but DO NOT use ICE COLD water, this could give them heart failure. Tap water to start, wet their gums and lips so they absorb the liquid. GET THEM TO A VET IMMEDIATELY. If you pup likes to swim, make sure they have a life jacket on and that they are supervised at all times. ENJOY YOUR SUMMER WITH YOUR FURBABIES...
